### **WASTELAND PENITENTIARY– \*NEW FOR 2019\***

The end of the world is nigh. Well, not so much nigh but NOW! When the apocalypse happened pretty much everywhere was turned into a wasteland. Most of the buildings were destroyed and the (un)lucky survivors cobbled together shelters, scavenging anything they could find. The one building that survived was the old prison. But it was damaged. Locks and bars were broken and those incarcerated were suddenly free, and with power over the only solid building in the whole of the Wasteland. The guards were no match for them. The prisoners took over and now have everything. You have nothing. If you want to survive the end of the world, you must go Wasteland Penitentiary and beg them for supplies. Perhaps they'll take pity on you. Perhaps they'll taunt you and torture you and lock you in a box, just like the guards did to them before. What goes around comes around.

### **THE WRECKONING– \*NEW FOR 2019\***

We've all heard the pirate tales of old. How Black Beard terrorised the seven seas and how Long John Silver tricked and swindled poor sailors. The black spot, Davey Jones locker and walking the plank. Forget the legends. Forget the frivolous folktales of brave buccaneers. These pirates are more than legend. These are the stranded souls who have sunk to the depths of despair and depravity. Shipwrecked and unscrupulous these pirates have created a new world on this island, and they intend to enforce their Pirate Law upon it. They bring violence, murder and disease. They bring The Wreckoning. Don't ask them for 'pieces of eight' or to 'shiver any timbers.' These mutinous murderers won't swash or buckle! Oh and don't say 'Arrr!' to them. You might end up screaming, "AAARRRRRGHHHHHHHHH!"

### **THE HORROR-WOOD HAYRIDE**

Jump on a trailer and explore the abandoned Horrorwood Film Studios. Back in the Golden Age of cinema, the Horrorwood film studios were booming, full of glamour and intrigue and bursting with life. Now all old Horrorwood is bursting with is DEATH. After the terrible incident with the actor who played 'The Woodsman' the old studio was forced to close and all the movie sets and props remained abandoned. Lots of actors lost their jobs, and were never on screen again, but worst of all, they lost their fame and MINDS. Some believe that the old actors from all of those years ago still act out the scenes of their glory days on the old set, unable to move on in this life, or the next. Lights, camera action!

### **TWISTED CLOWNS 3D**

A demonic circus like no other, the band of freaks and showmen conceal their evil nature with sinisterly smeared on make up and colorful costumes. But your laughter will soon turn to screams as you realize their insidious intentions. Three dimensions of dark, twisted evil that spring at you with every step.

## **VIXI**

Traumatic rituals create strong bonds between those who experience them together. Put on a hood and walk amongst the shades and shadows, your senses challenged, your eyesight taken, your head shrouded with only a rope for guidance. In an all-new story, the Ritual will take you on the darkest path yet.

## **COVEN OF 13**

The curse of Alice Hemlock is one told by few. A damned soul drowned and buried for witchcraft, her 12 sisters vowed to avenge her unjust death. It's said they sold their soles so her evil spirit could return to them and in doing so cursed the land. The coven of twelve has often been the darkest, but when joined by their thirteenth sister they are unstoppable.

## **THE CHOP SHOP**

Billy-Bob, Billy-Joe and Billy-Ray may seem like three innocent brothers trying to run a family business, but they have a disturbing dark secret. Don't let them fool you, those chainsaws aren't just for chopping car parts. Once you go scrap, you never go back. Ever.

## **THE CELLAR UNCHAINED**

The Cellar has long been a place where things are kept and forgotten. Lost things in the darkness scavenging to survive. But those that dwell in the Cellar have not been forgotten, they have been purposefully locked in. Imprisoned. Incarcerated. An experiment. What once was human is now a feral and malnourished murder of scavengers. Live These 'Creatures' have ransacked their 'comfortable' surroundings and turned it into a deadly game of cat and mouse. So when their captor releases the 'livefood' into The Cellar they are the cat and YOU are the mouse.

## **THE CREEPY COTTAGE**

Throughout the years, the cottage has seen a lot of comings and goings and some say many of its previous inhabitants have stuck around, unable to pass over. That doesn't mean to say the long-standing tenants aren't friendly. They believe in a traditional welcome and will show you all around – even the winding corridors where the lights don't work and the rooms where the floorboards have been eaten away by creepy crawlies. Shocks and scares to bemuse and bewilder you. Once you get in, will they let you back out?

## **THE CIRCUS OF HORRORS**

The world famous Dr Haze and his army of freaks have arrived at Shocktober Fest and will be taking you deep into the heart of the Asylum where the most deadly dangerous & greatest Circus of Horrors performers from our inglorious past are detained inside the confines of the notorious Psycho Ward. A truly horrifying 120 minute live show you'll never forget.

+ Award winning street theatre, exhilarating fairground rides, two live music stages, Three food courts. All wrapped up in a friendly festival atmosphere.
